3 Golden Stars

Some comments made by the European jury members

First Impression	<ul style="list-style-type: none"> • A rich and inviting looking muffin with a good colouration and even aeration. The light spongy texture has a soft liquid chocolate centre offering its own sauce. • Dazzling chocolate moelleux with plenty nice organoleptic qualities such as appearance, smell, texture and palate. Everything in balance. • Generous preparation with high quality ingredients that complement each other nicely in a very refined way.
Vision	<ul style="list-style-type: none"> • Beautiful presentation. • Very appetizing. Makes you want to taste more. • Dark chocolate colouration.
Olfaction	<ul style="list-style-type: none"> • Light chocolate/ cacao aromas exude from this product. • Aromas of high quality. • Very fragrant purity of smell that is inviting.
Texture	<ul style="list-style-type: none"> • Spongy texture. • Light aerated muffin with a good density. • Soft and light.
Taste	<ul style="list-style-type: none"> • A pleasant chocolate flavour with a good balance of sweet and bitterness. • Nose qualities reflect entirely on palate. Very pleasing. • Suggestion: why not adding a few chocolate nuggets to raise excitement?
